**DATA BREACH PREVENTION:**

Articles 25 and 32 imposes the implementation of efficient Cyber Security solutions to block, IDENTIFY, mitigate and remediate the effects of Malware infiltration.

# The S1 Platform: The Right Technology at the Right Time

BEFORE

### Static AI

Prevent attacks pre-execution

DURING

### Behavioral AI

Constantly monitor and map each running process for incongruous behaviors

AFTER

### Automated EDR

Automate remediation and response...even rollback

# THANKS!
