21 Academy was founded in 2018 as a Higher Education Institution licensed by the National Commission for Further and Higher Education with license number 2018-017.

The Academy has developed and delivered its own accredited courses such as Award in Company Law Fundamentals and Award in Anti Money Laundering & Funding of Terrorism.

It has also successfully delivered non-accredited courses such as the most sought-after course developed to date by the Academy, Course for Data Protection Officers/Leads. Other courses offered by the Academy include the 12-month long Business & Human Resource Management course as well as the Digital Marketing course.

The Academy is proud to have designed an Undergraduate Diploma in Business Administration which has been accredited at MQF Level 5 with 60 ECTS as well as a Diploma in Law (Malta) accredited at MQF Level 5 with 60 ECTS.

21 Academy also offers custom made

inhouse training programmes for businesses and also delivers training programmes at its own premises in Naxxar and online.

The Academy has also been successfully delivering an annual conference on the General Data Protection Regulation (GDPR).

Students undertaking their studies at 21 Academy have recognised the cost-effectiveness of each programme, their flexibility, as well as the expediency through which they are delivered.

The Academy's academic team consists of successful professionals who lecture and train on a part-time basis while at the same time continue to practice their profession in order to ensure a holistic and practical approach to their teaching. This helps to keep the training deliverables continuously updated.
