# Presentation Question

‘Privacy Consideration when designing a website’

Designing a company website with data capturing tools for recruitment and service booking entails significant privacy considerations. In a 20-minute presentation, explore the ethical and practical dimensions of privacy in this context. How can companies balance the need for data collection with respecting user privacy? What measures should be in place to ensure transparency and consent? Discuss potential risks, and show best practices from existing websites, for safeguarding user data in such websites.

# Presentation

- Saturday 11 May 9:00 till 12:00hrs
- 20 hours preparation
- 20 minutes long
- **All** group members should deliver part
- Questions will be asked

# Reflective Notes

- Friday 10 May at 23.59hrs
  - What did I Learn? (100 words)
  - What went well? (100 words)
  - What could I have done better? (100 words)
  - Long-term implications (200 words)

# Assignment Questions

Your task is to critically analyse the concept of lawful basis for processing personal data within the framework of GDPR. In your response, address the following:

- Define what is meant by the term "lawful basis for processing personal data."
- Identify and explain at least three lawful basis for processing personal data as outlined in the GDPR.
- Discuss the significance of selecting an appropriate lawful basis for processing personal data.
- Provide examples illustrating instances where organisations have faced challenges or consequences due to improper selection or misuse of lawful basis for processing personal data.

# Assignment Questions

Your task is to identify the data subject rights enshrined within the GDPR and explain their implications for organisations operating within the European Union or processing the personal data of EU residents. In your response, address the following:

- Define and explain the eight data subject rights enumerated in the GDPR.
- Briefly explain the the procedure for handling data subject requests and ensuring timely response.
- Name at least 4 different data privacy information notices that organisation must have

# Assignment Questions

Your task is to analyse the implications of data breaches under the GDPR framework and examine the responsibilities of organisations in responding to and mitigating such incidents. In your response, address the following:

- Define what constitutes a data breach according to the GDPR and distinguish between different types of data breaches, including accidental and unlawful breaches.
- Outline the obligations of organisations under the GDPR regarding the notification and reporting of data breaches to supervisory authorities and affected individuals.
- Discuss strategies and best practices for organisations to include preventive measures against data breaches.

# Website Compliance

## Policies & Notices

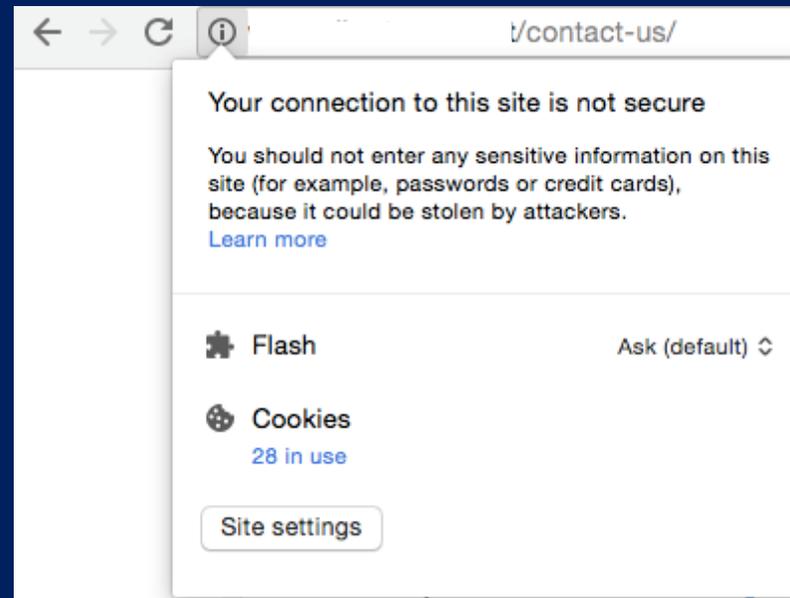

Cookie Policy which is also accessible from your privacy notice and also link it to the policies of the third party cookie providers

## Privacy Notice

# Website Compliance

## Secure Socket Layer (SSL)

# Website Compliance

## Data Capturing Tools

- Consent
- Links to notice/s
- Do not store data which you don't need
- Service providers (mailing list etc) should also be GDPR compliant & DPPA
- No pre ticked boxes
- Not bundled

# Website Compliance

Consent from all of those who show on  
photographs, videos and testimonials

including employees

# Website Compliance

## Payment Gateways

Make sure that they are GDPR compliant  
Link Privacy Notice

# Website Compliance

## Web Chat

Is the chat stored?

Is data captured from the chat?

Is chat provider GDPR compliant?

Does your notice link to theirs?

Do you have a DPPA in place?

# Presentation Question

## Introduction to Privacy Concerns

Outline the importance of privacy in today's digital landscape, especially when it comes to handling sensitive information like personal data for recruitment and service booking.

# Presentation Question

## Legal and Ethical Considerations

Discuss relevant laws and regulations governing data privacy, such as GDPR.

Emphasise the ethical responsibility of companies to protect user privacy.

# Presentation Question

## Balancing Data Collection and Privacy

Explore the tension between the need for data collection to improve recruitment and service booking processes and the imperative to respect user privacy.

Highlight the importance of finding a balance between these competing interests.

# Presentation Question

## Transparency and Consent

Discuss the necessity of transparent data practices and obtaining explicit consent from users before collecting their data.

Explain how companies can implement clear privacy notices and consent mechanisms to ensure users understand how their data will be used.

# Presentation Question

## Measures to Safeguard User Data

Outline specific measures companies can take to safeguard user data, such as SSL, and regular security audits.

# Presentation Question

## Potential Risks

Identify potential risks associated with data collection, such as data breaches, unauthorised access, and misuse of personal information.

Discuss the potential consequences for both users and the company in case of a privacy incident.

# Presentation Question

## Best Practices from Existing Websites

Showcase examples of websites that excel in privacy protection, highlighting features like clear privacy notices, user-friendly consent forms, and compliant data collection forms.
